

EDUCATION

B.Tech., Artificial Intelligence & Data Science	Sri Eshwar College of Engineering CGPA: 7.5	2024-2028
AISSCE Kids Club Sr Secondary School CBSE	77.5%	2022-2024
AISSE Subbiah Central School CBSE	79.6%	2021-2022

INTERNSHIP

MERN Stack Development Intern AlgoTutor	2025
--	------

Built a full-stack e-commerce application using MongoDB, Express.js, React.js, and Node.js. Developed REST APIs, implemented JWT authentication with role-based access control, and optimized database queries for improved performance.

PROJECTS

DOCUI: AN AI-POWERED DOCUMENT MANAGEMENT	2025
---	------

DocuAI is an intelligent document management solution developed to address document overload challenges in Kochi Metro's administrative workflows. The system streamlines document organization, classification, and retrieval to enable faster access to critical information. By automating document handling processes, it reduces manual effort and improves operational efficiency. The solution supports effective knowledge management and enhances overall productivity.

Tech Stack: Python, HTML, CSS, JavaScript

CAR PARKING MANAGEMENT SYSTEM:	2025
---------------------------------------	------

Car Parking Management System is a software solution developed to address parking congestion and inefficient space utilization in commercial and institutional environments. The system streamlines vehicle entry, exit, and parking slot allocation for better parking management. By automating parking operations, it reduces manual effort and improves space utilization. The solution enhances operational efficiency and provides a convenient parking experience for users.

Tech Stack: Java, MySQL, HTML, CSS

ACHIEVEMENTS

Ranked in Top 35.8% globally on LeetCode , showcasing strong problem-solving and algorithmic skills.	2025
---	------

Solved 100+ DSA problems with focus on time and space optimization.	2025
---	------

Selected through the internal college screening process to submit a project proposal for Smart India Hackathon (SIH) 2025.

Participated in competitive programming contests to improve coding efficiency and logical reasoning.

CODING PROFILE

LeetCode: 100+ problems solved Strong foundation in DSA Global Rank: 1,927,877 link	2025
---	------

CodeChef: 80+ problems solved Competitive programming link	2025
--	------

SkillRack: 750+ problems solved Algorithmic problem solving link	2025
--	------

CERTIFICATIONS

C Intermediate Mastering Data Structures with C and C++	2025
---	------

MERN Stack Development Udemy	2025
------------------------------	------

SQL (Advanced) HackerRank	2025
---------------------------	------

SKILLS

Languages: C | C++ | Python | Java | SQL

Core CS: DSA | DP | DBMS | OOP | OS (Basics)

Web: HTML | CSS | JavaScript | React.js | Node.js | Express.js | REST APIs | JWT

Databases: MySQL | PostgreSQL | MongoDB

ML/Data: Pandas | NumPy | Matplotlib | Data Preprocessing | Model Training | Evaluation

Frameworks: Streamlit | Spring Boot

Tools: Git | GitHub | VS Code | Power BI | Tableau | Excel | CI/CD
